

BE SAFE & PREPARED FOR THE Great American Solar Eclipse

Welcome To Idaho Falls!

We want your visit to Idaho Falls to be enjoyable, safe, and memorable. **Please keep this flier in your car for directions to the emergency room, police station, and eclipse viewing sites (see backside for city map).**

BE SAFE!

Cell phones may not work due to high usage demand, impacting your ability to make phone calls, access the internet, map directions, and text.

First responders and law enforcement are working diligently to ensure your safety. With the large influx of people, 911 response times may be longer than normal. Only use 911 in an event of an emergency. If you are unable to place a call to 911 on your cell phone or other mobile device, find the nearest landline (grocery store, gas station, restaurant, or other business).

BE PREPARED!

Given the large number of visitors to our region, access to basic supplies might be limited.

- Buy groceries as early as you can and make advanced dinner reservations.
- Keep cash on hand; ATM's may run out due to demand or may be inaccessible if Internet access is limited.
- Top off your gas often.
- Store bottled water and snacks in your vehicle (even a rental!) for long traffic delays or an emergency.
- Tune to local radio stations instead of satellite radio for important emergency updates.
- Purchase a battery-operated radio to receive emergency messages while at your eclipse viewing location.

TRAFFIC

- Plan for significant delays. Leave early for your destination.
- There may be even longer delays in surrounding rural communities with limited road access in and out of their towns.
- Map your location before you leave (or ask a resident for directions). You may not be able to rely on your cell phone for directions to your destination.

FIRE SAFETY

- August is Idaho's peak fire season. Be extremely careful with cigarettes, campfires, recreational burns, and parking on dry grass.
- Burn bans may be in effect. Check idahofireinfo.com for fire restriction areas.

DURING THE ECLIPSE

- Special eclipse viewing glasses are the only safe way to view the eclipse. If you experience blurry vision, rest your eyes for 15 minutes. If symptoms persist, seek medical attention. Do not drive if you are experiencing impaired vision. Purchase eclipse viewing glasses at the Idaho Falls Visitor Center.
- Be considerate of private property and all signage. Do not block gates or driveways and make sure emergency vehicles can pass.
- Get to your viewing location early and prepare to "settle in." Bring all your supplies to remain there until after the eclipse.

Emergency Locations (see map on back)

Emergency Care/Hospital:

Eastern Idaho Regional
Medical Center
3100 Channing Way

Idaho Falls Police Station:

605 N Capital

Official Eclipse Viewing Sites

- Community Park
700 E. 25th St.
